MISSION

To inculcate professional competence by providing students with the best possible curricular facilities in order to contribute to the health of local and Global communities.

ABOUT THE COLLEGE

P. Rami Reddy Memorial College of Pharmacy was established in the year 1997 by Sree Saraswathi Educational Society at Kadapa. Our college is one of the premier institute in pharmaceutical education and research in the country. To encourage the talent from the rural areas we started the first pharmacy college as P. Rami Reddy Memorial College of Pharmacy in Rayalaseema region of Andhra Pradesh.

The B.Pharmacy course was started in the year 1997 with 60 admissions and raised the intake to 100 in 2014.

Pharm.D and Pharm.D (PB) courses were introduced in the year 2008 and 2009 respectively. The M.Pharmacy course was started with Pharmacology (2010), Pharmaceutics (2010), Pharmaceutical Analysis (2011) and Pharmacognosy (2011).

Objectives:

- To discuss the importance of personal protective equipment when handling hazardous
- To explain the importance of medication safety
- To reduce illness and death rates to provide safer and more reliable healthcare services.
- To ensure the right drug, right dose, right route, and right patient, at the right time.
- To ensure that clinicians safely prescribe, dispense and administer appropriate medicines, and monitor medicine use.

Topics covered:

- Medication policies/procedures/practices.
- Essential elements of a drug order
- Authentication of verbal orders
- Medication errors
- Policies procedures protocols
- Adherence to a medication notification policy

P.R.R.M College of Pharmacy, Kadapa, organized a two-week certificate program on **Safe handling and administration of medication** for I Pharm D students by the resource person **Mrs. S. Kalpana**. There are five stages of the medication process: a. ordering/prescribing, b. transcribing and verifying, c. dispensing and delivering, d. administering and, e. monitoring and reporting. Mistakes with medication cause unpleasant or dangerous side effects, render the medication ineffective or even result in death of patients.
