Objectives of the FDP

The objective of the program is to create awareness on artificial intelligence (AI) in healthcare system to improve the quality, efficiency, and accessibility of healthcare.

Who should Attend

The FDP is open for the Faculty members, Research Scholars and Industrialists to enhance the quality of research in Pharmaceutical and interdisciplinary subject areas.

REGISTRATION
FREE Registration

CERTIFICATE ELIGIBILITY
Certificate will be provided to all participants who actively participate on all days of the FDP

ABOUT FACULTY DEVELOPMENT PROGRAM

A Faculty Development Program (FDP) on Artificial Intelligence in Healthcare System: An Advanced Data Mining Tools is a training program for faculty members, researchers, to learn about the latest advances in AI and data mining for healthcare applications.

The program typically covers :

- Introduction to artificial intelligence and machine learning
- Advanced data mining techniques for healthcare data
- Case studies of AI and data mining in healthcare
- Ethical considerations for using AI and data mining in healthcare

VISION

To provide quality and evidence based educational approaches in order to enable students face emerging challenges in the profession of pharmacy.

MISSION

To inculcate professional competence by providing students with the best possible curricular facilities in order to contribute to the health of local and Global communities.

ABOUT THE COLLEGE

P. Rami Reddy Memorial College of Pharmacy was established in the year 1997 by Sree Saraswathi Educational Society at Kadapa. Our college is one of the premier institute in pharmaceutical education and research in the country. To encourage the talent from the rural areas we started the first pharmacy college as P. Rami Reddy Memorial College of Pharmacy in Rayalaseema region of Andhra Pradesh.

The B.Pharmacy course was started in the year 1997 with 60 admissions and raised the intake to 100 in 2014. Pharm.D and Pharm.D (PB) courses were introduced in the year 2008 and 2009 respectively. The M.Pharmacy course was started with Pharmacology (2010), Pharmaceutics (2010), Pharmaceutical Analysis (2011) and Pharmacognosy (2011).

PROGRAMME REPORT

Name of the Programme: A Five days Faculty Development Program on "Artificial Intelligence in Healthcare System: An Advanced Data Mining Tools"

Date: 09.02.2022 to 14.02.2022

Objectives of the Programme:

P.Rami Reddy Memorial College of Pharmacy had successfully organized A 6 days Faculty Development Program on "**Artificial Intelligence in Healthcare System: An Advanced Data Mining Tools**" in association with Sree Saraswathi Educational Society. The objective of the program is to create awareness on artificial intelligence (AI) in healthcare system to improve the quality, efficiency, and accessibility of healthcare.

Topics Covered:

- Introduction to AI and machine learning.
- Data mining techniques for healthcare.
- Applications of AI in healthcare, such as:
 - ✓ Disease diagnosis and prognosis
 - ✓ Personalized treatment planning
 - ✓ Drug discovery
 - ✓ Real-time monitoring and feedback
 - ✓ Administrative tasks automation
- Ethical and legal considerations of AI in healthcare.
- Challenges and future directions of AI in healthcare.

Outcome of the Programme: The program helped faculty members to collaborate and work together more effectively. An open feedback was collected from the faculty members and they feel more motivated and confident in their teaching with an opportunity to collaborate with other faculty members. The program was extremely helpful to acquire knowledge and understanding of AI and machine learning, skill in data mining and analysis. Provide the ability to communicate effectively about AI in healthcare and create awareness of the ethical and legal considerations of AI in healthcare.

CIRCULAR

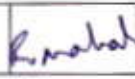

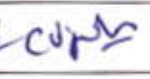

A Five days Faculty Development Program on "Technological Advancements in Chromatography: instrumentation and application"

We are pleased to inform that P.Rami Reddy Memorial College of Pharmacy is organizing "A Five days Faculty Development Program on Technological Advancements in Chromatography: instrumentation and application" from 04.10.2021 to 08.10.2021. All the faculty members of concerned departments are requested to register and to attend the program.

Vision

To provide quality and evidence based educational approaches in order to enable students face emerging challenges in the profession of pharmacy

Mission

To inculcate professional competence by providing students with the best possible curricular facilities in order to contribute to the health of local and Global communities.

ABOUT THE COLLEGE

P. Rami Reddy Memorial College of Pharmacy was established in the year 1997 by Sree Saraswathi Educational Society at Kadapa. Our college is one of the premier institute in pharmaceutical education and research in the country.

To encourage the talent from the rural areas we started the first pharmacy college as P. Rami Reddy Memorial College of Pharmacy in Rayalaseema region of Andhra Pradesh.

The B.Pharmacy course was started in the year 1997 with 60 admissions and raised the intake to 100 in 2014. Pharm.D and Pharm.D (PB) courses were introduced in the year 2008 and 2009 respectively. The M.Pharmacy course was started with Pharmacology (2010), Pharmaceutics (2010), Pharmaceutical Analysis (2011) and Pharmacognosy (2011).

ABOUT FACULTY DEVELOPMENT PROGRAM

The scope of the Faculty Development Programme is to cover all stages of the innovation & entrepreneurship continuum, in accordance with the existing National Innovation and Start-up Policies potentially in view of the prevailing therapeutic/clinical needs in the pharmaceutical sector. The scope of the FDP is to promote, educate and support faculty members for potential careers at the convergence of basic and translational research, cutting-edge therapeutic delivery, science and emerging medical device technologies. Further, this will foster the development of career paths that incorporate new analytical or technological tools, including medical devices for faculty members.

CERTIFICATE ELIGIBILITY

Certificate will be provided to all participants who actively participate on all days of the FDP.

OBJECTIVES OF THE FDP

Continuous advancements in chromatographic techniques. Reversed-phase liquid chromatography (RPLC) as the gold standard for pharmaceutical analysis. Ultra-high performance liquid chromatography (UHPLC) updated technique.

WHO SHOULD ATTEND

The FDP is open for the Faculty members, Research Scholars and Industrialists to enhance the quality of research in Pharmaceutical and interdisciplinary subject areas.

REGISTRATION
FREE Registration.

ABOUT THE DEPARTMENT

The Department of Pharmaceutical Analysis has emerged as one of the premier science departments of P.Rami Reddy Memorial College of Pharmacy. The Department is uniquely blessed with a rich legacy, highly dedicated and inspiring faculty, talented researchers and helpful supporting staff. The instrumental facilities like UV-Vis Spectrophotometer, HPLC with PDA detector, FT-IR, Flame Photometer, Spectrofluorimeter, Nephelometer, Turbidimeter, Karl Fisher Auto Titrator, Electrophoresis, Conductometer and high-end computational facility like servers and softwares.

PROGRAMME REPORT

Name of the Programme: A Five days Faculty Development Program on “Technological Advancements in Chromatography: instrumentation and application”

Date: 04.10.2021 to 08.10.2021

Objectives of the Programme:

P.Rami Reddy Memorial College of Pharmacy had successfully organized A six days Faculty Development Program on “Technological Advancements in Chromatography: instrumentation and application” in association with Sree Saraswathi Educational Society. The main objective of the program is to ignite the research interest among the faculties through expert opinions in the area of Chromatographic techniques. Technological advancements in chromatographic techniques including liquid chromatography with ultraviolet detection (LC-UV), liquid chromatography with mass spectroscopy (LC-MS), liquid chromatography with high-resolution mass spectroscopy (LC-HRMS) and ultra-high performance liquid chromatography (UHPLC) techniques.

Topics Covered:

- Continuous advancements in chromatographic techniques.
- Reversed-phase liquid chromatography (RPLC) as the gold standard for pharmaceutical analysis.
- Ultra-high performance liquid chromatography (UHPLC) updated technique allows for higher efficiency and increased throughput than traditional chromatography methods.
- Wide use of LC-MS method for analyzing metabolomics.

Outcome of the Programme: An open feedback was collected from the faculty members and the programme was very beneficial for covering the topics related to the knowledge that is useful for the research work and updating of their knowledge. The participants acquired the knowledge regarding advanced chromatographic techniques like liquid chromatography with mass spectroscopy (LC-MS), liquid chromatography with high-resolution mass spectroscopy (LC-HRMS) and ultra-high performance liquid chromatography (UHPLC) techniques. They enriched the knowledge on the innovative chromatographic columns for the analysis of protein biopharmaceuticals and chiral drugs and detecting genotoxic impurities with the help of Hydrophilic Interaction Chromatography (HILIC), and immobilized polysaccharide chiral stationary phases.

PROGRAMME REPORT

Name of the Programme: A One day training programme on “Communication Skills and Personality Development”.

Date: 18.12.2021

Objectives of the Programme:

P.Rami Reddy Memorial College of Pharmacy had successfully organized A One day training programme on “**Communication Skills and Personality Development**” in association with Sree Saraswathi Educational Society. The main objective of the program is to help the non-teaching staff to improve the communication skills and personality development with the help of number of resources.

Outcome of the Programme:

The outcome of a Communication Skills and Personality Development training program was very positive. Participants experienced improved communication skills, increased self-confidence, enhanced self-awareness, improved interpersonal skills, and greater career success. Communication skills and personality development programs may help participants to better understand themselves and their strengths and weaknesses. This can lead to more effective self-management and decision-making. Participants learned how to interact with others in a more positive and professional manner. This can lead to stronger relationships with colleagues, friends, and family members.
