CIRCULAR

A Six days Faculty Development Program on "Role of Computer Aided Drug Design in Drug Discovery and Development"

We are pleased to inform that P.Rami Reddy Memorial College of Pharmacy is organizing "A Six days Faculty Development Program on Role of Computer Aided Drug Design in Drug Discovery and Development" from 11.03.2019 to 16.03.2019. All the faculty members of concerned departments are requested to register and to attend the program.

ABOUT THE COLLEGE

VISION

To provide quality and evidence based educational approaches in order to enable students face emerging challenges in the profession of pharmacy

MISSION

To inculcate professional competence by providing students with the best possible curricular facilities in order to contribute to the health of local and Global communities.

P. Rami Reddy Memorial College of Pharmacy was established in the year 1997 by Sree Saraswathi Educational Society at Kadapa. Our college is one of the premier institute in pharmaceutical education and research in the country. To encourage the talent from the rural areas we started the first pharmacy college as P. Rami Reddy Memorial College of Pharmacy in Rayalaseema region of Andhra Pradesh.

The B.Pharmacy course was started in the year 1997 with 60 admissions and raised the intake to 100 in 2014. Pharm.D and Pharm.D (PB) courses were introduced in the year 2008 and 2009 respectively. The M.Pharmacy course was started with Pharmacology (2010), Pharmaceutics (2010), Pharmaceutical Analysis (2011) and Pharmacognosy (2011).

OBJECTIVES OF THE FDP

This FDP provides a platform to learn the tools and techniques needed for the design, discovery and development of drugs. To provide the knowledge and skills needed for faculty and researchers to cater to the present day situation of drug development and enhance their learning styles.

WHO SHOULD ATTEND

The FDP is open for the Faculty members, Research Scholars and Industrialists to enhance the quality of research in Pharmaceutical and interdisciplinary subject areas.

REGISTRATION

FREE REGISTRATION.

CERTIFICATE ELIGIBILITY

Certificate will be provided to all participants who actively participate on all days of the FDP.

ABOUT FACULTY DEVELOPMENT PROGRAM

The scope of the Faculty Development Programme is to cover all stages of the innovation & entrepreneurship continuum, in accordance with the existing National Innovation and Start-up Policies potentially in view of the prevailing therapeutic/clinical needs in the pharmaceutical sector. The scope of the FDP is to promote, educate and support staff members for potential careers at the convergence drug discovery and development through various advanced features. Further, a wide range of computational approaches including new methodologies like In silico screening as well as practical aspects will be focused.

PROGRAMME REPORT

Name of the Programme: A Six days Faculty Development Program on “Role of Computer Aided Drug Design in Drug Discovery and Development”

Date: 11.03.2019 to 16.03.2019

Objectives of the Programme:

P.Rami Reddy Memorial College of Pharmacy had successfully organized A Six days Faculty Development Program on “**Role of Computer Aided Drug Design in Drug Discovery and Development**” in association with Sree Saraswathi Educational Society. The main objective of the program is to ignite the research interest among the faculties through expert opinions in the area of drug discovery and development with the help of Computer Aided Drug Design.

This FDP provides a platform to learn the tools and techniques needed for the design, discovery and development of drugs. To provide the knowledge and skills needed for faculty and researchers to cater to the present day situation of drug development and enhance their learning styles. drug discovery and development through various advanced features. In silico screening also paves path for the synthesis and screening of selected compounds for better therapeutics. computational chemistry and computer aided drug discovery which are aimed to cover a wide range of computational approaches including new methodologies as well as practical aspects in this area.

Topics Covered:

- Creating Value from Mountains of Data
- Artificial Neural Networks (ANNs)
- AI Drug-Hunting Captures Big Pharma Interest
- Intelligence in Drug Discovery by Using Different AI Models

Outcome of the Programme:

An open feedback was collected from the faculty members and they convey that the program was extremely helpful for covering the topics related to the information which is useful for the research work, for the drug discovery. Artificial Intelligence will identify hit and lead molecules, allowing for faster confirmation of the drug target and drug optimization. Identifying a novel drug molecule necessitates its integration into an appropriate dosage type with the desired distribution characteristics. In what manner the Artificial Intelligence will take the place of the traditional trial-and-error process.

OBJECTIVES OF THE FDP

The objectives of this FDP are to:

Provide participants with a comprehensive overview of the latest advances in research methodology for pharmaceutical innovation.

Equip participants with the skills

Promote the adoption of advanced research in pharmaceutical sector.

ABOUT FACULTY DEVELOPMENT PROGRAM

By attending this FDP participants can develop the skills and knowledge necessary to:

Conduct innovative research that on addresses the unmet needs of patients and the healthcare system

Design and conduct research studies that are rigorous, scientifically sound, and ethically responsible

Use advanced research methods and tools to analyze data and generate new knowledge

Communicate their research findings to a variety of audiences, including scientists, clinicians, and policymakers

CERTIFICATE ELIGIBILITY

Certificate will be provided to all participants who actively participate on all days of the FDP.

PROGRAMME REPORT

Name of the Programme: A Five days Faculty Development Program on “Advanced research methodology of Innovation learning and research in pharmaceutical sector”.

Date: 17.12.2018 to 21.12.2018

Objectives of the Programme:

P.Rami Reddy Memorial College of Pharmacy had successfully organized A Six days Faculty Development Program on “**Advanced research methodology of innovation learning and research in pharmaceutical sector**” in association with Sree Saraswathi Educational Society. The main objective of the program is to enhance and polish the research work carried out in the field of Pharmacy. And to learn the new innovations and research strategies in the field of pharmacy.

Topics Covered:

- To gain new insights into open innovation in medical and pharmaceutical research by performing a full-scale bibliometric analysis.
- Invention or research and discovery of new drugs.
- Development, preparation and submission of applications for FDA approval, and design of production processes for new drugs.
- Product differentiation, or the clinical testing of a new drug against an existing rival drug to show that the new drug is superior; and
- Safety monitoring, or clinical trials that the FDA may require detecting side effects that may not have been observed in shorter trials when the drug was in development.

Outcome of the Programme: An open feedback was collected from the faculty members and they convey that the program was extremely helpful for covering

VISION

To provide quality and evidence based educational approaches in order to enable students face emerging challenges in the profession of pharmacy.

MISSION

To inculcate professional competence by providing students with the best possible curricular facilities in order to contribute to the health of local and Global communities.

ABOUT THE COLLEGE

P. Rami Reddy Memorial College of Pharmacy was established in the year 1997 by Sree Saraswathi Educational Society at Kadapa. Our college is one of the premier institute in pharmaceutical education and research in the country. To encourage the talent from the rural areas we started the first pharmacy college as P. Rami Reddy Memorial College of Pharmacy in Rayalaseema region of Andhra Pradesh.

The B.Pharmacy course was started in the year 1997 with 60 admissions and raised the intake to 100 in 2014. Pharm.D and Pharm.D (PB) courses were introduced in the year 2008 and 2009 respectively. The M.Pharmacy course was started with Pharmacology (2010), Pharmaceutics (2010), Pharmaceutical Analysis (2011) and Pharmacognosy (2011).

Objectives of the FDP

The main objective of the program is to provide research scholars and faculty to enhance the quality of research in Social Sciences, Humanities, Commerce and Management and interdisciplinary subject areas. It aims to cover topics from identification of the research problem, review of literature, quantitative, qualitative, and mixed methodologies to ethical practices in writing and publication.

WHO SHOULD ATTEND

The FDP is open for the Faculty members, Research Scholars and Industrialists to enhance the quality of research in Pharmaceutical and interdisciplinary subject areas.

ABOUT FACULTY DEVELOPMENT

PROGRAM

The scope of the Faculty Development Programme is to cover all stages of the innovation & entrepreneurship continuum, in accordance with the existing National Innovation and Start-up Policies potentially in view of the prevailing therapeutic/ clinical needs in the pharmaceutical sector. The scope of the FDP is to promote, educate and support faculty members for potential careers at the convergence of basic and translational research, cutting-edge therapeutic delivery, science and emerging medical device technologies.

PROGRAMME REPORT

Name of the Programme: A Six days Faculty Development Program on "Emerging trends in Pharmacy practice"

Date: 16.07.2018 to 21.07.2018

Objectives of the Programme:

P.Rami Reddy Memorial College of Pharmacy had successfully organized A Six days Faculty Development Program on "**Emerging trends in Pharmacy practice**" in association with Sree Saraswathi Educational Society. The main objective of the program is to provide research scholars to enhance the quality of research in Social Sciences, Humanities, Commerce and Management and interdisciplinary subject areas. It aims to cover topics from identification of the research problem, review of literature, quantitative, qualitative, and mixed methodologies to ethical practices in writing and publication.

Topics Covered:

- Introduction about pharmacy practice
- Enhancement of quality of research in social sciences
- Enhancement of quality of research in Humanities and commerce
- Management and interdisciplinary subject programme
- Explanation about how research and publication works
- Management of research problems, review of literature, quantitative and qualitative methodologies

Outcome of the Programme: After this Faculty Development Programme, the participating faculty members and research scholars, irrespective of their disciplines, were aware of quantitative, qualitative, and mixed methodologies in research and publication ethics. Their theoretical understanding and practical perspectives were deepened. Among the many desired outcomes of this Faculty Development Program is the collaboration between faculty members and

PROGRAMME REPORT

Name of the Programme: A One day training programme on "Fire and Safety Awareness Program".

Date: 15.12.2018

Objectives of the Programme:

P.Rami Reddy Memorial College of Pharmacy had successfully organized A One day training programme on "**Fire and Safety Awareness Program**" in association with Sree Saraswathi Educational Society. The main objective of the program is to increase awareness of fire hazards in the workplace such as flammable materials, electrical hazards and smoking materials. To teach employees how to prevent fires and respond to fire.

Topics Covered:

- The nature of fire
- The causes of fire
- Fire prevention measures
- Fire extinguishing procedures
- Evacuation procedures
- First aid for fire victims
- Reporting procedures

Outcome of the Programme:

The outcome of a fire and safety awareness training program was it increased awareness of fire hazards and the importance of fire prevention. Increased ability to use fire extinguishers and other fire safety equipment. It also improved the ability of the non teaching faculty members to evacuate a building safely in the event of a fire. Created a culture of safety in the workspace and overall response from the trained persons was good.
