This report provides an overview of a Four-day GPAT (Graduate Pharmacy Aptitude Test) training programme conducted at PRRMCP from 24.09.2019 to 27.09.2019. The objective of the training programme was to equip pharmacy students with the necessary skills and knowledge to excel in the GPAT examination.

#### **Day 1: Orientation and Exam Overview**

- ✓ The first day of the training programme focused on providing an orientation to the participants. It began with a welcome address by the college faculty followed by an overview of the GPAT examination.
- ✓ The trainers highlighted the importance of the exam, its structure, and scoring pattern. They discussed the various sections of the exam, including pharmaceutical analysis, pharmaceuticals, pharmacology, pharmacognosy, and medicinal chemistry.

#### **Day 2: Subject-Specific Sessions**

- ✓ subject-specific sessions were conducted to delve deeper into each topic covered in the GPAT examination. Expert faculty members from the college, as well as guest lecturers,

delivered informative presentations on pharmaceutical analysis, pharmaceutics, pharmacology, pharmacognosy, and medicinal chemistry.

- ✓ These sessions aimed to enhance the students' understanding of key concepts and provide them with valuable insights and tips for effective preparation.

### Day 3: Mock Test and Analysis

- ✓ The third day of the training programme focused on practical implementation. A mock GPAT test was administered to the participants, replicating the actual examination environment. The test was designed to assess their knowledge, time management skills, and problem-solving abilities.

### Day 4: Strategy Building and Q & A Session

- ✓ On the final day of the training programme, participants engaged in a strategy building session. Trainers shared effective study techniques, time management strategies, and recommended reference materials.
- ✓ They also provided guidance on creating personalized study plans based on individual strengths and weaknesses. A question-and-answer session was conducted to address any queries or concerns raised by the participants.

### Conclusion:

The Four-day GPAT training programme at PRRMCP was a comprehensive initiative aimed at preparing pharmacy students for the GPAT examination. The programme provided participants with an in-depth understanding of the exam structure, subject-specific knowledge, and practical strategies to enhance their performance.

The training programme equipped students with the necessary tools to excel in the GPAT examination and pursue their career aspirations in the pharmaceutical field.

The Training and Placement Cell of PRRM College of Pharmacy conducted "A three day Training Program on clinical SAS" on **12.11.2019 to 13.11.2019** in the Seminar Hall PRRM College of pharmacy. This Program was started by HOD of pharmacy practice with a note on importance clinical data and its analysis in production of results in a research study.

The objective of the training program was to provide students with essential skills and knowledge in using SAS software for clinical data analysis. The session aimed to equip participants with practical insights and hands-on experience in working with Clinical SAS.

The training session covered the following topics:

- ✓ Introduction to Clinical SAS and its applications
- ✓ Data import and export using SAS
- ✓ Data manipulation and transformation
- ✓ Statistical analysis using SAS
- ✓ Generating tables, listings, and graphs
- ✓ Clinical trial data handling and validation

- ✓ Quality control and data integration
- ✓ Introduction to CDISC (Clinical Data Interchange Standards Consortium) standards
- ✓ The training was delivered through a combination of lectures, hands-on exercises, and interactive discussions. Participants were provided with training materials, including manuals and datasets, to facilitate their learning process.

The three-day Clinical SAS training session at PRRMCP was a resounding success. The participants gained valuable skills and knowledge in using SAS software for clinical data analysis. The hands-on approach and interactive training methodology helped to enhance their understanding of the subject matter. The training session played a crucial role in preparing the participants for future careers in the field of clinical data analysis.

We extend our gratitude to the trainers and all participants for their active involvement and enthusiasm throughout the training program. We hope that the knowledge gained will prove beneficial in their academic and professional endeavors.

The Training and Placement Cell of PRRM College of Pharmacy conducted Career Guidance Program on 18.07.2019 in the Seminar Hall at our College Campus. This Program was started by our Principal importance of pharmacy field in Discovery of drug, clinical trials of drug, licensing process, production, marketing, dispensing, and monitoring of drug. Motivated students with some mottos like "Doctor treats disease by using drug but pharmacist gives birth to that drug" Later speaker started the session by introducing fields one by one and their importance as follows.

- ✓ B.Pharmacy graduates can work as pharmacists in various settings, such as retail pharmacies, hospitals, clinics, and pharmaceutical companies. Pharmacists dispense medications, provide patient counseling, monitor drug interactions, and ensure the safe and effective use of medications.
- ✓ Pharma graduates pursue careers in the pharmaceutical industry in areas such as drug research and development, quality control, regulatory affairs, manufacturing, sales and marketing, pharmacovigilance, and medical writing.
- ✓ B.Pharmacy graduates can work in the field of clinical research, assisting in the design, conduct, and monitoring of clinical trials. They may work in research organizations, contract research organizations (CROs), or pharmaceutical companies.
- ✓ Regulatory affairs professionals ensure compliance with regulations and guidelines related to pharmaceutical products. They prepare and submit regulatory documents,

coordinate with regulatory agencies, and ensure that products meet the required standards.

- ✓ Academic and Research Institutions
- ✓ B.Pharmacy graduates can explore job opportunities in government healthcare departments, drug regulatory authorities, and research institutions. These roles may involve drug regulation, policy development, drug safety monitoring, or research projects.
- ✓ Graduates can work in hospital pharmacy departments, collaborating with healthcare teams to ensure safe and effective medication use, providing drug information, and participating in patient care.
- ✓ Pharmaceutical Marketing and Sales

It's important to note that the availability of career opportunities may vary depending on factors such as location, market demand, and individual qualifications. This session provided abundant information to the students and paved a way to select rewarding career both professionally and financially. Students also actively participated and asked doubts and clarified enthusiastically.

We hope this session empowered students and also handed needed information. Finally the session was ended with vote of thanks to the speaker by the program co-ordinator and students.
