Date: **20.12.2021**

CIRCULAR

All the staff and students are informed that in our ongoing commitment to Environmental sustainability and maintaining a clean and healthy campus, we are pleased to announce the implementation of a comprehensive solid waste management plan at our college.

By adopting various measures, we aim to reduce our environmental foot print, promote responsible waste management and create a cleaner and healthier campus for everyone. Hence all are informed to dispose the waste in specific biodegradable and nonbiodegradable dustbins placed in the college premises.

CIRCULAR

All the teaching and non-teaching staff as well as students are hereby informed that our college has adopted a green policy and all single-use plastics are banned inside the college campus and premises. So, it is our aim to encourage the reusable bags which are made up of clothes, kraft paper bags etc.

It is our responsibility to take action against the usage of plastic at the college premises. As the plastic become a ubiquitous part of our daily lives, but there are one of the most harmful pollutants in our environment.

- Plastic is an enormous burden on the land for all the living organisms.
- There are alternatives of plastic which are eco-friendly and sustainable.
- We should ban plastic as their biggest challenge is their disposal.
- As the plastic does not undergo degradation which effect soil fertility.
- Fill up at a fountain and drink out of a reusable water bottle instead of plastic version.
