

P. RAMI REDDY MEMORIAL COLLEGE OF PHARMACY

44/35-1, Prakruthi Nagar, Utukur, Kadapa – 516 003 A.P.

Approved by AICTE & PCI, New Delhi, Recognised by Govt. of A.P.

Affiliated to JNTUA, Ananthapuramu. Recognised U/S 2(f) & 12(B) of UGC Act, 1956.

DOCUMENTS RELATED TO CLEAN AND GREEN CAMPUS INITIATIVES

01. ALTERNATIVE SOURCES FOR ENERGY AND ENERGY CONSERVATION MEASURES

A) Solar Panels

Solar energy is produced by the sun's light – photovoltaic energy offers many benefits that make it one of the most promising energy

- I. Renewable
- II. Inexhaustible
- III. Non-Polluting
- IV. Avoids global warming
- V. Reduces use of fossil fuel
- VI. Reduces energy imports
- VII. Contributes to sustainable development

The Institution has facilities for alternate sources of energy and energy-conservation measures. 15 KWP energy is generated through the solar panels and 25% of electricity consumption is met by these solar panels.

SOLAR PANEL

B) Led Bulbs

The Institution has facilities to enhance the energy efficiency across the campus. Conventional lights have been replaced by the LED bulbs as the energy saving measures. In our campus maximum of

lighting source comes from LED bulbs. LED lights are energy/efficient long-lasting, and emit less heat. They use up to less energy than incandescent bulbs, last up to 40 times longer, and offer high quality light output.

LED BULBS

2. MANAGEMENT OF THE FOLLOWING TYPES OF DEGRADABLE AND NONDEGRADABLE WASTE

Our institute has taken several measures in maintaining a clean and green campus with eco-friendly policies such as

- Solid waste management.
- Liquid waste management
- Biomedical waste management.
- E-waste management of Hazardous Chemicals and
- Radioactive Waste Management

A) Solid Waste Management

Solid waste management is the process of collecting, treating, and disposing of solid materials that are discarded because they have served their purpose or are no longer useful. The institution carefully monitors effective management of solid waste in the campus making sure that bins are provided separately for dry and wet waste at every corner of the corridor and at wash rooms. Empty chemical bottles! reagent containers are disposed on a regular basis.

The waste is disposed off by giving to municipality collection vehicles every day. Awareness programmes are organized on waste management. To sustain eco-friendly and green enabled campus various NSS programs like Swatch Bharat, Clean & Green activities and plantation in campus are regularly conducted.

B) Liquid Waste Management

It is a method for preventing the discharge of pollutants into water ways by collecting and disposing of hazardous liquid items. The liquid waste is generated from science laboratories, hostels and canteen. The institution channelizes waste water from all the laboratories to underground channels for disposal.

C) E-Waste Management

E- waste management refers to properly disposing and managing electronic waste, including old or discarded electronic gadgets such as phones, computers, and televisions. The waste generated from obsolete electronic equipment -Computer monitors, CPUs, and other E-waste is collected by "MICROHARD SOLUTIONS" who undertake recycling activities. Remaining waste are disposed off through Municipal agency.

D) Assistive technology and facilities for persons with disabilities (divyangajan) accessible website, screen reading software, mechanized equipment.

E) Provision for enquiry and information: Human resistance, reader, scribe, soft copies of reading material, green reading.

Creating disabled-friendly facilities in institutions is essential to ensure accessibility and inclusion for individuals with disabilities. Therefore, at AMRMCP we provide accessible entrances and exits with ramps and sloped pathways. Lift facility is provided to reach all the floors. Accessible restrooms are maintained.
